

## The BULATS Difference

### BULATS and TOEIC Compared

Both BULATS and TOEIC are internationally-recognized business English language proficiency tests. So what is the BULATS difference?

**It's faster.** It takes less than half the time. The computer-adaptive nature of BULATS test requires far fewer questions to pinpoint your skill level. And that means less test-taker fatigue as well.

**It's more convenient.** You can take it any time, from any internet computer, without making an appointment.

**It's more affordable.** Whether you need 50 tests or 2,000 tests, BULATS is up to 30% less expensive thanks to Vantage's very attractive volume pricing plans.

**It gives you immediate results.** You'll have the score the minute the test is completed.

	BULATS	TOEIC
<i>Global recognition</i>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
